Americans Deserve Access To Quality, Affordable Health Care

Congressman Bart Gordon talks about the problem of increasing health-insurance costs at a meeting in Cookeville.

You can work hard and be frugal all your life, but one family medical emergency can cause you to lose everything you have worked a lifetime to save. Every American should have access to affordable health care, but sadly over 43 million lack health insurance.

Families that are lucky enough to have coverage are faced with ever-increasing premiums. Prescription-drug costs continue to skyrocket, putting a financial burden on many Middle Tennesseans, especially the elderly.

Congressman Bart Gordon Is Fighting For Health-Care Reform

Congressman Bart Gordon supports reforms that will help Americans get the health care they need. He supports a real Medicare prescription-drug benefit and legislation allowing Americans to buy safe, less-costly prescription drugs from other countries like Canada.

Bart is a sponsor of the Patient's Bill of Rights, which will give patients and doctors – not insurance company bookkeepers – control over medical decisions.

Congressman Bart Gordon talks about the need to lower prescription-drug costs.
